

Example 3:

$$\varrho = G \frac{V}{I}$$

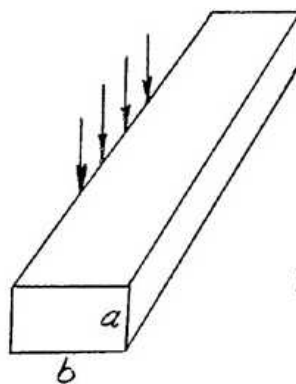

$$\varrho = \frac{\alpha^\circ}{180^\circ} G \frac{V}{I}$$

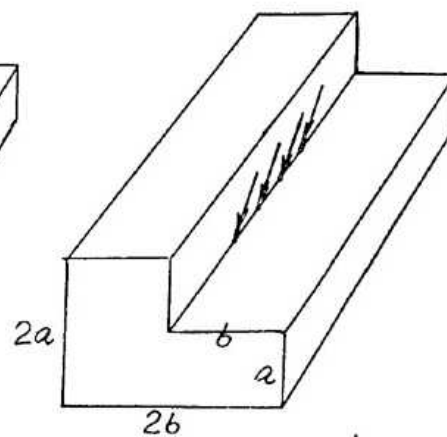

A fourth example on box-shaped samples:

Example 4:

$$\varrho = G \frac{V}{I}$$

$$\varrho = \frac{1}{2} G \frac{V}{I}$$

$$\varrho = \frac{3}{2} G \frac{V}{I}$$
