

Thin, rectangular or oval.

$$Q = G \frac{V}{L}$$

$$G \approx t \cdot \frac{\pi}{\ln 2} R_1\left(\frac{b}{s}, \frac{a}{s}\right)$$

$$\frac{\pi}{\ln 2} R_1\left(\frac{b}{s}, \frac{a}{s}\right)$$

4,5324

thickness $t < \frac{s}{2}$
